

Plato Courseware Beyond High School Library

A big step in helping all students take their next step

We share your commitment to developing students who are prepared for college and career. In fact, "college and career readiness" was our philosophy long before it was a phrase.

The Plato Courseware Beyond High School Library is a comprehensive online curriculum for test preparation. The courses prepare students for the leading college entrance and placement tests as well as for career certification and work skills exams. Our rigorous and engaging courses are aligned to each test's objectives.

Effective online courses

The Beyond High School Library is not simply a collection of content. It is a suite of courses designed specifically for test preparation and aligned to each test's objectives. Each unit within a course includes a pretest and a post-test, while each module within a unit contains a mastery test. Finally, every course includes an end-of-course test. Together, these comprehensive assessments ensure meaningful feedback and measurable progress.

Packaged to fit your program

Edmentum understands no two schools or districts are alike and that is why we offer licensing options to meet your unique needs. A partnership with Edmentum provides you with the flexibility needed for success. With our variety of packaging selections, we will find the perfect solution to fit within your budget and help your students thrive.

The result is quality courses fit the needs of your program and your students. With unmatched quality, rigor, and effectiveness, Plato Courseware leads to your most important goal - improved student achievement.

Plato Courseware Curriculum

Beyond High School Library

College entrance

ACT

The ACT assesses high school students' general educational development and their ability to complete college-level work.
